**Grades:** Elite & Clear

## INTRODUCING STUDIOLINE

StudioLine is Gorman's premium slatted profile, designed to bring warmth and modern style to any space. With clean lines and natural wood characteristics, it transforms plain walls into architectural features, elevating both residential and commercial interiors. Perfect for feature walls, media centers, and home offices, StudioLine blends style and substance in one natural solution.

Beyond aesthetics, StudioLine adds practical benefits to everyday spaces. Its slatted design helps diffuse sound, softening echo in busy rooms, making it a natural fit for studios, offices, and media rooms. Flexible by design, StudioLine can be painted, stained, or left natural to complement styles from Scandinavian to modern farmhouse to coastal.

Whether in the home or a commercial setting, StudioLine delivers function, flexibility, and smarter building solutions all in a profile that inspires creativity.
